# MISSION STATEMENT

The primary mission of Delsea Regional School District Athletic Training Services is to provide quality medical care to students participating in interscholastic athletics. The services to be delivered can be broken down into three primary categories: athletic injury prevention, athletic injury management, and athletic injury rehabilitation. We are committed to using whatever technology is available and affordable in the delivery of these services.

We intend to fulfill our mission statement by:

- Creating a comfortable, caring environment within the athletic training facility.
- Assuring that each physician, staff member, and student athletic trainer maintains a pleasant, caring, and professional attitude consistent with the National Athletic Trainers Association Code of Professional Practice.
- Maintaining and operating the athletic training facility in a sanitary, organized, and efficient manner.
- Assuring that our emergency procedures are safe, efficient, and expedient.
- Assuring that each athlete is carefully counseled regarding their injury or illness, and options are explained when appropriate.
- Philosophically providing all athletes with the opportunity to see a qualified medical physician (M.D. or D.O) if he or she makes this request to a certified staff member.
- Insuring that each athlete has the best possible opportunity to participate in interscholastic athletics in a physically healthy environment.

*The health, well-being, and safety of our student-athletes  
are paramount to all other matters.*
